AIRFORCE PUMPS

All Airforce Pumps are powered by Yamada NDP series double diaphragm pumps.

Yamada Pumps and Yamada Corporation hold the following approvals for the NDP series.

- ATEX 95: Pumps are approved for use in explosive atmospheres.
- Health and Safety Standards: EN 13463-1:2001, EN 8091 Oct. 1998, Directive 98/37/EC.
- Factory Quality Standards: BS EN ISO 9001:2000, ISO 9001:2000, JIS Q 9001:2000,

Third party "listings" are currently NOT a requirement for pump installations in NFPA 13D systems.
